

Information, Data & Cyber Security Policy

Striving to maintain our global position as the number one supplier of loadcells to the lifting, rigging and load measurement industries

Crosby Straightpoint

Information, Data & Cyber Security Policy Statement

It is the policy of Crosby Straightpoint, part of Kito Crosby, is to continually exercise due care and diligence in protecting protect information from unauthorized access, use, disclosure, destruction, modification, disruption or distribution, in order to:

- Protect information entrusted to us by customers, stakeholders & others;
- Maintain personal professional integrity;
- Protect the reputation of the company;
- Comply with legal requirements;
- Avoid undesirable negative consequences, such as regulatory fines, disciplinary action, legal action, customer relationship difficulties, and brand damage.

The Senior Management Team is responsible for establishing and maintaining protocols and processes that ensure the integrity of the company is maintained, and that all staff, and those contracted by the company to carry out work on its behalf, have a proper understanding of what is required of them.

Crosby Straightpoint is committed to ensuring that all information and data collected, stored, used and processed by the company, including personal information, will be protected from deliberate and unintentional unauthorized access, use, disclosure, disruption, modification and destruction by external or internal influences.

Furthermore, personal; information will not be disclosed to any third parties without the express consent of the person about information is held, except in the case where legally required, or it is in our legitimate interest, and does not overwrite your data protection interests or fundamental rights and freedoms.

Kevin Coote

Plant Manager Crosby Straightpoint Consistent with this policy, and our strategic direction, our top management have identified key information security goals that include objectives and performance targets relating to:

- Compliance with regulatory requirements, and the requirements of other stakeholders and interested parties, regarding information security;
- Customer requirements relating to the protection of their information and data;
- Implementation of our information security risk treatment programme.

Performance data relating to achievement of targets is continually monitored and analysed.

The competence and awareness of all staff is regularly reviewed to ensure the effectiveness of their contribution to achieving information security objectives and the strategic direction of the company.

As part of our internal and external communication procedures and staff training programmes, it is ensured that this policy, and associated objectives, is communicated, understood, implemented and maintained at all levels within the organisation, and made available to relevant interested parties where required or requested.

This policy is regularly reviewed by top management to ensure its continuing suitability, adequacy, effectiveness and alignment with our strategic direction.
